FLORA, IND.

JULY 2nd - 8th Flora, Ind. celebrates it's centennial and amateurs
can participate. Listen for K9EFY on 3910 Khz. and Ind. nets.

VHF-FM

Larry Goodrich W9HTK trustee and monitor of the .16 / .76 Indpls Repeater
system located at WISH-TV advises the following new procedure to help
them save on their recording tape. The overall timer has been increased
to 5 min. and thus do not let the carrier of the repeater drop each time
between transmissions. Let the system stay on the air and only DROP
CARRIER about every 4 min. to reset the timer. In other words use fast
break-in and keep the repeater on the air. Thus you will not use up
10 or more sec. of tape recording time every time the carrier drops.
Also when you are finished with a QSO...the last station to sign should
let the carrier drop to begin the tape and ID both stations and time so
it will be properly recorded. As usual listen to a few proper operators
will get you familiar with the proper procedure. This is also true when
traveling in a new area when on vacation this summer.

9JA
Noble

Silent Key:....Noble Watson "9JA" later W9RUC will long be remembered by
the old timelocal hams. A pioneer Radio Broadcaster he also operated
the CQ Motel at Kokomo, Ind. and was well known for his Phone-patching
and other ham activities. He began commercial broadcasting as WKBF
which later was changed to WIRE.

HOMEBREW
REVIEW

There were several entries for homebrew Night and the judges had a hard
time selecting the winner who received a 1972 ARRL Hand Book. Such items
as a VXO - Rubber crystal Osc. that could be varied from 28.58 to 29.12
Bill Lueths 110 V. Power supply for HR-2A, Fred Crandell's Signal tracer-
intercom, John Tewell's 17 watt 40 meter transmitter (50C5) which he
worked on till 4 AM the night before....Cost \$5.00 and last but not least
John Mayfield's wide assortment of gear of which an 80 M. 12V DC trans.
won him 1st Prize. Bob W9PSE also showed his 100W 2 Meter FM mobile
amplifier which was actually built by Paul W9DUU and modified by Bob to
work with an HR2MS Transcan. (DX is 10 Mi. N. of Elwood to Greenwood via.
K9LPW .16/76 Repeater from Windfall, Indiana
